Experience

Localization Project Manager | Oct 2023 – Sep 2025

BeConnected Bulgaria

- Managed 30–40 incoming localization projects daily, ranging from single-word requests to 50,000+ words, ensuring timely assignment, execution, and delivery.
- Managed freelance teams of up to 44 linguists per project across multiple languages and selected vendors based on expertise, availability, deadlines, and budget.
- Managed project budgets and negotiated revised budgets and deadlines when scope or requirements changed. Improved project profitability through strategic vendor selection and rate negotiation, increasing lower-margin projects from 20–30% to 50%+ while maintaining delivery speed and productivity.
- Used memoQ, SDL Trados, Memsource, XTM, Wordbee, Smartcat, Smartling, Across, GlobalLink, GenTrans, Phrase, and Polyglot to prepare, track, and deliver localization projects.
- Maintained client and internal stakeholder communication, coordinated feedback and revisions, and monitored project progress throughout the full lifecycle.
- Contributed to the transition from Plunet to a custom translation management system, collaborating with external developers on a solution tailored to company workflows.

Customer Support | Mar 2021 – Sep 2022

Sitel – Just Eat Project UK

- Handled order, payment, and delivery enquiries through chat and email using Zendesk.
- Resolved customer complaints and provided practical solutions while maintaining clear, professional communication.
- Documented customer interactions and maintained support-ticket records in line with company procedures.
